

90% OF BUSINESS ENERGY CONTRACTS FROM ENERGY BROKERS, HAVE BEEN MIS-SOLD!

Initial Research

The OFGEM report that was released on 28th March 2022, Confirms that almost every Business that has used a Broker, is being mis-sold.

80% of all UK Businesses use Energy Brokers for their Business Energy Contracts- Of which, an estimated 90% of these have been mis-sold

Claiming Strategy

We recover directly from the Supplier, and NOT from the Broker, meaning our claim values are 3-4 times higher than normal.

We are the ONLY company that can calculate the claims accurately, which have been forensically examined and certified, using proprietary calculations and algorithms.

Recovery & Fees

Our panel of Solicitors charge the lowest fees on the market, and are capped at 30% of the settlement Figure.

You will never be asked to pay a penny - you only pay when you win.

We receive our fees directly from the Solicitor, paid out of their 30%.

We are the only company recommended to Law Firms by Litigation Funders and Insurance Providers.

It costs you nothing to find out what your claim is worth, and nothing will proceed until you are happy and you sign with the Solicitor.

Easy Claims Process

All we need are copies of your Energy Contracts, a couple of bills from each contract period, and any emails from your Broker, so that we can calculate your claim.

And only when you are happy to proceed, we will pass your claim to our panel of Solicitors who are processing multiple cases.

Follow-up & Support

All the Claims are submitted via our secure onboarding process, and regular updates are emailed as the claim passes each stage until finalised.

If you have any queries, please contact the person who showed this to you.
